

THE MIL CORPORATION

BACKGROUNDER

PEOPLE MAKING THE DIFFERENCE

Established in 1980, MIL provides innovative cyber, engineering, financial, and information technology services to the federal government. Creative, highly skilled professionals are what set us apart. Dedicated to excellence, service, and support, MIL recognizes that sustained high-quality service delivery is the most important contributor to our success. Our proven ability to retain existing customers (several for over 30 years) and build long-term relationships is proof of the MIL commitment and is a direct result of the outstanding performance of our team.

We've been recognized by our clients and industry professionals alike for our integrity, diligence, and expertise across our core service areas.

SERVICE SECTORS

MIL follows a proven approach for managing support services contracts with a high degree of quality and a passion for customer satisfaction. In order to align with customer needs and to continue to deliver the innovative, professional, and responsive services its customers require, our company is organized into four distinct service areas:

- **Cyber Services**
- **Engineerign Services (C4ISR)**
- **Financial Services**
- **IT Services**

CYBER

MIL provides full spectrum cyber operations services, providing our customers the competitive advantage they need to combat the ever-growing cyber threat. Our cyber interdisciplinary teams are trained and certified to perform penetration testing, incident response, and disaster recovery. Approaching cybersecurity from both an offensive and defensive perspective, MIL cyber experts understand how to navigate federal mandates and are ready to assist in the planning, managing, and integration of cybersecurity throughout the lifecycle of a Program of Record.

Blue Team

- Technical Vulnerability Analysis, Assessment, and Remediation
- Incident Response and Incident Handling
- Disaster Recovery
- IA/RMF/Certification Audit Support
- Computer Network Defense

Red Team

- Threat Emulation
- Testing & Vulnerability Analysis

THE MIL CORPORATION

BACKGROUNDER

ENGINEERING (C4ISR)

Whether it's providing cradle-to-grave project management solutions, meeting Command, Control, Communications & Computer (C4) system requirements, or providing mission systems testing support, MIL's engineering teams work collaboratively with both government and contractor personnel. Engineering services include system lifecycle solutions, which span all research, design, and development stages. Our C4 pillar tools include project management and system engineering resources for technical managers to plan and oversee small to enterprise level programs.

Engineering Services include:

- Mobile, Shipboard, Airborne, and Unmanned C4 System Design and Implementation
- Continuity of Operations (COOP), Disaster Recovery Design and Implementation
- Audio/Visual and Broadcast Systems Design and Implementation
- Mechanical Design and Implementation
- Network Infrastructure Design and Implementation

FINANCIAL

Dedicated to providing expert and cost-effective solutions, MIL offers a wide variety of financial, administrative, and IT services to the federal government. We support our partners through implementation, support, and maintenance of commercial off the shelf (COTS) and custom financial management, accounting, payroll, and administrative systems. Providing support in the U.S. and across the globe, our client partners benefit from proven, hands-on solutions – with an objective view.

Financial Services include:

Federal Financial Management

- Budgeting and Accounting Models
- Business Process Improvement
- Compliance
- Security and Audit Readiness

Financial System Integration

- Program Management
- COTS Implementation
- Operations and Maintenance
- IV&V

Business & Administrative Support

- Help desks
- Training
- eTravel Support

THE MIL CORPORATION

BACKGROUND

INFORMATION TECHNOLOGY

MIL's information technology services provide customers and partners with unmatched expertise in enterprise, system, project, and application level solutions. Our years of experience in providing problem-solving solutions for customers' enterprise and program level needs establishes MIL as an industry leader in the federal space. Our solutions are tailored for our customers at every level, as we partner to develop and deliver the best services to address both current and long term needs and goals.

IT Services include:

- Infrastructure
- Applications
- Network Operations

COMMUNITY SERVICE

MIL CARES (Celebrates, Acknowledges, Responds, Energizes, and Strengthens) is tasked with organizing MIL involvement in community service efforts throughout the year. We believe in servicing the communities in which we live and work. Some examples include food drives, coat drives, Toys for Tots, collecting funds for disaster relief efforts, volunteering at Habitat for Humanity, or supporting our soldiers and Veterans.
