

The MIL Corporation

Thoughtful, driven professionals ready to listen, plan, and act.

A Commitment to Excellence

MIL was established in 1980 and has since provided top-notch cyber, engineering, financial, and information technology services to the federal government. Our subject matter experts help to advance customer operations through proven tools and methodologies. Creative and highly skilled professionals are what set us apart.

Federal Financial Management

MIL delivers federal financial services that support implementation, operation, and maintenance of commercial off-the-shelf and custom financial management, accounting, and administrative systems. Additionally, we provide the government with these cost-effective financial and IT support services across the globe. Our client partners benefit from proven, hands-on solutions, while maintaining an objective view.

IT Services

MIL provides systems administration, service desk solutions, cloud computing, and applications development. Our IT services also include infrastructure, applications development, and help desk support. Because we are CMMI Level 3 appraised and ISO certified, our processes keep systems running efficiently and effectively.

Cyber Services

MIL develops, tests, certifies, and deploys the technologies and methodologies our customers need to protect their critical data and infrastructure. We leverage our corporate experience applying information assurance best practices to support our customers in reducing risks, threats, and vulnerabilities in cyberspace by employing new cyber-defense operating concepts to protect networks and systems against intrusions and malicious activity.

Engineering Services

MIL provides systems lifecycle solutions that span research, design, test & evaluation, and logistics. We offer rapid engineering and prototyping solutions such as project management, production, integration, fielding, and technical management support services for a wide range of communications-electronic systems, subsystems, and equipment. We take pride in supplying quick, cost-effective, and efficient answers to our Warfighters' ongoing requirements.
