

Federal financial transformation times the power of two.

FedServ powers financial transformation so that our federal customers can drive innovation, value, and mission performance.

Who we are

FedServ LLC is an 8(a) and SDVOSB Joint Venture between Blake Willson Group, a licensed CPA firm, and The MIL Corporation. FedServ combines the power of two industry leaders in financial management and financial transformation with excellent experience and reputation within the Federal Government. We work to leverage our end-to-end understanding of the complexities of government financial management and regulatory requirements. FedServ then partners with federal agencies to modernize their financial system solutions, realize gains from intelligent automation, and utilize technology to optimize budgeting, accounting, internal controls, and reporting. With trillions of dollars flowing out in the form of federal financial assistance, FedServ has proven experience helping awarding agencies manage end-to-end funding business processes.
